### OTHER COUNTY CONVENTIONS.

County conventions of the independent democratic party were held Saturday in, the various counties of the state. In Missoula county an independent ticket was named and the usual democratic resolutions condemning everything republican and eulogizing everything republican and eulogizing everything of a bourbon nature were adopted.

In Jefferson county the independents indorsed the bank democratic county ticket with the exception of the legislative ticket, two county commissioners and the clerk and recorder. Charley Burket of Pipestone Springs was nominated on the legislative ticket. The resolutions adopted censured W. A. Clark. The independent democratic of Ravalli county are also "unalterably opposed to the election of W. A. Clark of Silver Bow to the United States senate." They put up a full county ticket.

The Gallatin county independents "condemned as unfair, unjust and undemocratic the arbitrary action of the Clark managers of the Helena convention," condemned wholesale bribery and the "treachery of Sam T. Hauser." A portion of the bank democratic county ticket was indorsed.

The Park county independents instructed their delegates to vote for T. S. Hogan for governor, Frank Henry for judge and

ed their delegates to vote for T. S. Hogan for governor, Frank Henry for judge and for governor, Frank Henry for judge and Alex Livingston for state treasurer, For the county offices and legislative assembly indorsements were made from the silver republican and democratic tickets. The Carbon county independents met in Red Lodge Saturday and ratified the nominations made Sept. 12. Lelegates to the state convention were instructed to favor the nomination of E. J. Reporter."
The county convention of the labor party has only ratified the nominations of the minority republicans. It remains to pass judgment upon the candidates nominated by the bank democrats and populists. Those in sympathy with the bank democrats are hustling, and are very zealous in attempts to persuade the straight ticket fellows to line up with them and ratify the fusion.

The straight labor ticket men of the county convention coomplain that they had their feet taken from under them when Martin Dee, of the conference committee, arose and made a statement that the bank democrats had pledged the committee that no man would be nominated in their convention except such as carried union cards. How they carried out that pledge is seen in the nominations of Frank E. Corbett and M. P. Gilchrist, Tom Kilgalion and John MacGimis, all well known men but not the persons whom the labor interest demanded. So there is not all harmony in the ranks of there is not all harmony in the ranks of labor politicians.

Kill the Germ.

Falling hair is caused by dandruf, which is a germ disease. Ahe germ in burrowing in to the root of the hair, where it destroys the vitality of the hair, causing the hair to fall out, digs up the cuticle in little scales, called dandruff, or scurf. You can't stop the falling hair without curing the dandruff, and you can't cure the dandruff without killing the dandruff germ. "Destroy the cause, you remove the effect." Newbro's Herpicide is the only hair preparation that kills the dandruff germ. Herpicide is also a delightful hair dressing.

# FELL TO HIS DEATH DOWN A SHAFT Underwear

BERNARD M'DONALD, A GARPENTER, PLUNGED 250 FEET IN THE SMOKEHOUSE.

Bernard McDonaid, a carpenter who for the last six weeks has been employed at the Smokehouse mine, near the intersection of Broadway and Wyoming streets, fell from a bucket while being hoisted out of the shaft at 2 o'clock this afternoon and plunged 250 feet downward to his death. Hardly a bone in the unfortunate man's body was left intact as the result of the fall and death was practically instantaneous.

William De Lano and Joseph Catron. two miners, were forced to witness the death under circumstances that will haunt them to their dying day.

McDonaid took his seat on the rim of the bucket after the usual fashion employed by miners, and gave the bell three rings as a signal to the engineer to hoist away. When the bucket had attained a height of 250 feet, he lost his hold in some unknown manner and fell. For a hundred feet his descent was sneer, when

he struck a wall plate and for the remainder of the fall was hurled back and forth.

Hearing the rattling noise in the shaft, De Lano and Catron, knowing only too well what was the trouble, signaled the engineer to stop hoisting. Then stepping forward they peered up the shaft just as the body fell at their feet, a mangled and bleeding mass.

Justice of the Peace Nichols was notified and the remains were taken to Sherman's undertaking parlors. A cursory

BUTTE HOODLUM'S IMITATE VICTOR MOB

A lot of hoodlums ranging in age from 12 to 16 years, encouraged by grown ruffians, attempted Saturday night to initate the villains who assaulted Governor Roosevelt at Victor, Col. While the republican flambeau club was on its return march, and passing a point on East Granite between Main and Wyoming, they were surprised by a shower of eggs, rocks, sticks and mud hurled at them by hoodlums and a few men. The character of the gang was easily distinguished by their shouts for Eryan and yells of derision for the republican candidate.

The assault was more grievous after the men in the club extinguished their torches and darkness obscured the assailants; nevertheless the club maintained its ranks unbroken, and if any punishment was delivered in retallation,

field and the remains were taken to Sher-man's undertaking parlors. A cursory examination revealed that the left leg was fractured in two places, the right wrist in one, and the spinal column in several places, while the base of the skull was completely driven in. McDonald was an unmarried man and came here from Boston about six years ago. An inquest will be held over the re-mains tomorrow.
